$2,000 Scholarship

RedCastle Resources, Inc. / MAGIP GIS Scholarship

Undergraduate and Graduate Students working on Natural Resource Management

If you are student at a Montana college or university in 2015, and are working on a natural resource-based project, thesis or dissertation using GIS or remote sensing, you are eligible to receive a scholarship of up to $2,000. This award is sponsored by RedCastle Resources inc. and Montana Association of Geographic Information Professionals (MAGIP). RedCastle Resources is a small private company that is dedicated to informed management of natural resources using geospatial technologies. Coupled with the MAGIP mission of providing educational and networking opportunities for the geospatial community of Montana, RedCastle Resources offers this scholarship to facilitate high quality research directed towards judicious management of natural resources using the best available science and technology.

To Apply please submit the following information:

1. Name, and physical contact information, including phone number and e-mail address
2. A project proposal that explains how GIS will be used in your work (limit five pages)
3. Name, phone and email of advisor on research project
4. Two letters of recommendation supporting both the student and the proposal enclosed in a sealed envelope signed across the envelope flap

Applications MUST be received by Friday, April 10, 2015.

Submit a hard copy of your application to:

RedCastle Resources Inc./ MAGIP Higher Education GIS Scholarship
C/O Robert Ahl, PhD
Missoula Technology and Development Center
5785 West Broadway
Missoula, MT 59808

Send an electronic version to: magip.mt+educ@gmail.com

Applications will be forwarded to the selection committee and recipients will be contacted in writing by May 1, 2015. Recipients will have the following school year to develop their research and will receive a free conference registration and invitation to present the results of their work at the next MAGIP conference. The 2016 MAGIP Intermountain Conference will be in Great Falls, MT the week of April 4 – 8, 2016. The sponsored project will be completed with a final written report documenting the intent, methods, and discussion of the results. Upon completion, the final report will be submitted to the same address as the application materials.
